

## **Junior Water Polo Report for 2021 AGM**

After the success of our U14s comfortably winning the league in 2019 we started 2020 thinking optimistically about our chances of another successful league season. Sadly, the pandemic meant that no league matches were played during the year and that for several months we were unable even to train.

On a positive note, we retained nearly all of the registered members during the whole year and have seen an increase in the number of younger members, which looking longer term is a positive signal for the club. Despite several changes in the session times, we saw a good turnout at training every week.

We also saw great support from parents, with several volunteering to help as Covid Officers and all helping us to keep to the Covid measure that we had to introduce in order to allow training sessions to take place.

On the coaching side James Moffat stood down from coaching after the summer, and we would like to thank Simon Jones stepping in to lead the training sessions.

We are looking forward to training resuming shortly and we hope that competitive matches can start later in the year.
